South Africa is home to a large number of trophy species. At Hunt The Sun, hunting is ethical fair chase and packages are tailor made to suit your needs.

In the Northern Cape hunting occurs mainly on large tracts of farming ground which supports healthy populations of free range animals. The ability to hunt both in the Northern Cape and the Eastern Cape allows for a large variety of species to be hunted. Specialist hunts for scarce and sought after species are offered throughout Southern Africa allowing you to benefit from our experience. We endeavour to hunt animals in their indigenous habitats to allow you to experience the true hunt.
